**Fresno County Sheriff's Department Announces Progress in
the Woodley Homicide Investigation**

In July of 2005 Roy and Angela Woodley were found murdered in their Tarpey area home, just outside of Clovis. Since that time, Sheriff's Department Detectives have continued to investigate their homicides.

In August of this year the Governor's Office issued a \$50,000.00 dollar reward for information regarding the homicides. In October of this year several billboards went up around Fresno County. The billboards showed pictures of the victims and announced the \$50,000.00 dollar reward.

To date, investigators have received several phone calls from unidentified persons who have provided detectives with information regarding the homicides. Detectives verified the information from the unidentified persons. Detectives are asking these people to recontact them. The information provided by the anonymous callers matches the information detectives have and they urgently need to speak with the callers again. The callers can remain anonymous and are urged to contact Detective John Ciaccio at (559)488-3730 or CRIME STOPPERS at 498-STOP(7267).

Sheriff's Detectives believe with the cooperation of the anonymous callers, they are close to making arrests in this case.
